

PETERS VILLAGE

I would like to confirm that the business case which the Practice put forward and supported by West Kent Clinical Commissioning Group (WKCCG) has been approved.

Full details of this are available to view via the WKCCG website under the following link:

<https://www.westkentccg.nhs.uk/about-us/publications/?categoryesctl1a5cc360-7091-42ae-8890-a825dc169160=19786>

The existing premises that we have at Burham and Eccles are no longer fit for purpose and our move to Peters Village will enable the Practice to:

- Develop a purpose built , state of the art facility with the capacity to serve the ever growing patient population and to allow for expand further when increased need demands
- Recruit and retain an increased General Practitioner, nursing and other clinical workforce
- Create a premises that are fit for purpose and fit for the future, able to respond to both local and national strategic direction and the NHS Long Term Plan
- Provide a far better patient experience

We are now moving forward alongside our developer with the process of preparing for the build and this is anticipated to start summer of this year with a hopeful completion and move in date summer 2021. I will of course keep you appraised as the build progresses.

I hope that you will agree that this gives an assured future for the Phoenix Medical Practice and an improved level of patient care.

Kind regards

Robert Niechoj – Practice Manager
